## ASSEMBLY BILL

**No. 532**

**Introduced by Assembly Member Yee**

February 18, 2003

---

An act to add Section 5097 to the Vehicle Code, relating to vehicles.

### LEGISLATIVE COUNSEL'S DIGEST

AB 532, as amended, Yee. Vehicles: special interest license plates: classroom instruction support.

Existing law requires the Department of Motor Vehicles to issue special interest license plates to any person applying for the plates and paying certain fees. The plates contain a distinct design or decal of the participating organization and may be displayed in lieu of regular license plates. Existing law prohibits the department from issuing any special interest license plate until the participating organization has received and submitted to the department not less than 7,500 applications for that particular plate within certain time limitations.

This bill would require the department, in consultation with the State Department of Education, to design and make available for issuance, in accordance with existing law, special interest license plates with a specified design. The bill would require certain funds generated from the issuance of the special interest license plates to be deposited in the ~~Classroom Instruction Support License Plate~~ *Motor Vehicle Account*, which the bill would establish in the ~~General~~ *State Transportation*

Fund. The bill would require the department, commencing on January 1, 2005, and every January 1 thereafter, to report to the State Department of Education on a yearly basis the total number of plates sold under these provisions during the previous year within each county. The bill would require the money *that is deposited* in the account, *as described above*, upon appropriation by the Legislature, to be allocated by the *department, in consultation with the* State Department of Education, to school districts within each county within which plates are reported to have been sold. The bill would require that the funds be allocated among the counties in the proportion that the number of plates sold under these provisions in a county during the previous year bears to the total number of plates sold under these provisions in the state during the previous year. The bill would require a school district that receives funds under these provisions to expend those funds solely for the purposes of funding classroom instruction support programs, including the purchase of books and instructional materials, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.
